

NOTES FROM THE DIRECTOR

This is the first article written on behalf of USACPF and we welcome all of our readers.

Presently USACPF is working on collecting Clydesdale historical information. This information can provide a piece of the American Clydesdale History that is missing. We will lose this forever if it isn't collected soon. When we are on the road with the Clydesdales, we hear wonderful stories from people we meet about their Clydesdale memories from their past or their grandparent's experiences.

Unfortunately, the greatest generation is disappearing and they hold many stories and memories of the Clydesdale's past. We are asking those who have historical accounts of history to please share them with the USACPF archival team. If you want to be involved in this part of the Clydesdale history, please call Rebecca at 602.803.4051 or email at: stivers.rebecca@yahoo.com.

The Clydesdales stories will be shared with many generations to come.

Thank You for your Support!
